Objectives and Investment Policy

Objective: Seeks to increase the value of your investment and to provide income over the medium to long term.
Portfolio securities: The Sub-Fund invests mainly in euro denominated investment grade corporate bonds. The Sub-Fund may also invest in bonds from emerging market issuers and, on an ancillary basis, in government bonds. The Sub-Fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (either long or short) to various assets, markets or income streams. This may generate a high level of leverage. In particular, the Sub-Fund may invest in short and medium-term interest rate swaps.
